Online Eligibility and Benefit Verification

ADL's real-time Eligibility and Benefits Verification, simplifies your workflow by connecting you directly to Payors to verify patient eligibility before admitting or rendering services. Functions within the ADL User Interface connect to the Emdeon clearinghouse, the largest Clinical, Financial and Administrative health information network in the nation. With this connection, you are able to access the data from all the Payors for which you have enrolled.

Eligibility lookups are instantaneous and the results can be imported directly into the patient record. Use Eligibility to determine the financial resources of a prospective patient. The functions are available as part of the ADL user interface. Full informational reports can be viewed or printed.

Submitted Claims

Access to your submitted claims from 1,200+ national and regional Payors (representing over 5,800 Payor IDs). View online the details of all Claims and their Status. Correct your submitted Claims from your User Interface. This direct link, from your ADL software, to Emdeon's extensive lookup and services, are also supported via Emdeon's help desk that is available 24x7.

Your Claims can be submitted through the Emdeon Clearinghouse eliminating the need for multiple submissions to different Payors. States implementing Managed Medicaid are supported through the clearinghouse. Emdeon has achieved a Clean Claims Rates: 99% (Clearinghouse) and 97% (Payor)

Electronic Remittance Advice (ERA)

Payments are transmitted to your system as Electronic Remittance Advises. The Advises are imported directly into the system and can be posted to the Patients Accounts Receivable. Automating your ERAs improves your cash flow and will save you time. Utilize your resources more effectively by electronically posting payments.

Assistance With Payor Enrollment

ADL has partnered with Emdeon Partner to add Eligibility and Clearinghouse services to the patient accounting modules. The Emdeon functionality has been integrated with the ADL software and is fully supported by ADL and Emdeon Customer Support. Emdeon will assist enrolling your facility with Payors and Insurance companies that need to be accessed. Once enrolled, you will have access to the online lookup and claims management functions directly from your ADL software.

ADL Data Systems is an official Emdeon channel partner. To learn more about Emdeon, visit www.emdeon.com. ADL is an authorized partner for "Emdeon Provider Complete".
