Daily Resident Schedules

Track residents' daily schedules and instantly know when and what will be recorded for each resident by the hour. View at a glance upcoming schedules displayed in a Microsoft Outlook style appointment page. This module makes it easy to know how and when to prepare the resident for their next activity. No more missed activities or appointments.

View Schedule by Nursing Unit

View schedules for the entire nursing unit (station). Know at a glance what activity or event a resident is scheduled to attend.

Color Coded Events and Activities

Define your events and color coding so events can be determined when glancing at the schedule.

Conflict Resolution

Departmental professionals can view and edit an individual's scheduled activities and services. The software checks to ensure activities are not scheduled for overlapping time periods.

Clinical Documentation Workflow

Schedule and track any section of the medical chart requiring updates on a regular basis.
