

User Defined Assessment Tool

"Create Fillable eForms"

ADL's user defined assessment tool (UDAT) allows you to import, store, auto populate and manually fill in electronic assessment directly on PDF forms using Optimum Clinical.

Streamline Workflow

- Recreate electronic copies of any paper form with Adobe Acrobat
- Map form fields to database fields with the UDAT Manager Tool
- Use PDFs to write assessments, record info and update EMRs

Data Entry

- Capture info at point of service and reduce data entry errors
- Insert pictures and graphics
- Auto update database records
- Save time by copying data and resident info from prior forms

Data Storage

- Handle Multiple Fill Forms
- Organize forms in folders arranged by category

HIPPA Compliance & Security

- Restrict access to forms based on user role and function
- Lock forms with signatures

Benefits

- Custom Forms
- Built on PDF Technology
- Updating EMRs in Real Time

Features

- Auto-fill Form Fields
- Database Integration
- Drag & Drop Data
- Field Level Validation
- Forms & Data Archive
- Free Acrobat Reader
- Electronic Signatures
- HIPPA Compliant
- Import Forms/Export Data

Acrobat Professional:

- Add Fields to PDF Forms
- Add Digital Signature Fields
- Design new PDF Forms
- Modify Existing Forms
