Features

Downloadable Forms
Custom Forms
Saves PDF with Data
Updates Database
Updates the Workflow

Eliminate Paper No More File Cabinets Easily Access Documents

eForms PDF is an addon to the user Interface that enable handling all types of data-enabled PDF Acrobat Forms. Use government or commercial PDF forms to enter, print, save, and update the Patient/Resident databases. Users work on the forms they are familiar with while updating the Database and the Document Library.

Replace your facility's paper forms and documents in all areas including:

- ✓ Admission Forms
- ✓ Legal Documents
- ✓ Agreements
- ✓ Advisement Notices
- ✓ Nursing Assessments
- ✓ Discharge
- ✓ Miscellaneous
- ✓ Employment Applications
- ✓ Employee Registration
- ✓ Purchase Orders
- ✓ Any custom form

Completed ePDF forms can be saved into the Document Library and accessed with the Document Viewer.

Dozens of Standard Filler PDF templates are available to download from the Clients-Only Portal and if custom forms are needed they can be easily created by either your staff or ours.
