- Rehabilitation

Integrated With

- Cloud Fax Services
- HL7 Services
- Private SMS
- SFTP Servers

Compliance

- GDPR
- HIPAA
- ISO
- NIST
- PCI
- SOX

Hosting Software as a Service (SaaS)

ADL Data works with world class business partners to develop targeted solutions to help solve Long Term Healthcare's greatest challenges. ADL has teamed with Oracle to simplify the adoption and use of electronic health records and information sharing between healthcare providers.

Integration. Optimization. Ease-of-use.

These are the reasons that Oracle is the hardware and database platform of choice for ADL Data Accounting and EMR solutions. ADL and Oracle are helping nursing homes and long term care facilities to effectively utilize the next level of healthcare technology.

Managed Cloud Services

ADL Data Managed Cloud Services makes it easier to access data without the expensive and time-consuming burden of maintaining in-house hardware and network systems. ADL proactively manages your IT systems so you can efficiently optimize technology, usability, and uptime. Our services adjust quickly to your needs and goals, while enabling you to focus on care and save money.

End-to-End Electronic Medical Records

ADL Data and Oracle are able to offer clients true end-to-end electronic medical record solutions. Oracle hosts ADL Applications in the cloud, simplifying access and data management for clients—all on software and hardware that have been tested, integrated, and optimized to work seamlessly together.
